With the same features as CertainTeed® Ridge Vent Filtered, this high-performance ridge vent is 7" wide so it can be used with many enhanced ridge and cap shingles.

CertainTeed Ridge Vents combined with sufficient intake vents, such as CertainTeed Intake Vent, are the most efficient and effective systems you can install.
CertainTeed® Ridge Vent

Rated for Class A roof decks in accordance with UL Standard.

Features

• Designed with an external baffle to deflect wind and weather over the vent to help protect the attic from rain and snow infiltration. The external baffle creates low pressure over the vent openings to “pull” air from the attic.
• Internal weather filter provides a more complete barrier to help protect the attic from wind-driven rain, snow, dust and insects.
• Easy installation – has pre-printed slot guides for truss or ridge pole construction. Pre-drilled nail holes are designed to assure proper nailing.
• 16" sq. of net free area per linear foot
• CertainTeed Ridge Vent is pre-formed to a 4/12 pitch, and fits pitches from 3/12 to 12/12
• Limited Lifetime Warranty and 5-Year SureStart™ Protection
• Ten 4’ pieces per box / Weight: 15.5 lbs, / Part #95997
Model #CLASH7CC / Color: Charcoal

Benefits

• Works year-round to ventilate the attic
• Provides evenly distributed ventilation along the entire underside of the roof
• Slim design for visual appeal
• Provides a higher volume of airflow per square foot of attic area than any other fixed-vent system
• Design maximizes airflow across the entire underside of roof sheathing
• Changes in wind direction have no significant effect on vent performance

ShingleVent II-7 Class A is Manufactured for CertainTeed Corporation by Air Vent, Inc., Orrick, MO.
