Welcome to the Decking & Railing Collection.
For more than 100 years, homeowners and building professionals have trusted CertainTeed for the highest quality building products, and continually setting the standards for exciting innovations in style and performance.

Today, that spirit of innovation comes to life in the CertainTeed Decking & Railing Collection with the industry’s leading array of colors, styles, and performance. The EverNew™ railing product lines offer a combination of superior quality and style that has become the premier choice of homeowners and building professionals.

The comforts of home are no longer defined by four walls. Outside living spaces are “in” as porches, yards and gardens are transformed into beautiful open-air rooms. If you’re longing for the joys of fresh air living, CertainTeed can help. Our Living Spaces® exterior products suite, including siding, soffit and accessories, porch, decking, railing, fence and roofing products, offers everything you need to create and define your own great outdoors.

Our commitment to safety

CertainTeed products meet stringent requirements for quality and performance. Safe, secure and durable, our railing and deck systems are engineered to provide years of worry-free enjoyment.

Performance that lasts

EverNew® railing products are designed to maintain their integrity over time. Products made of wood may meet code when they’re brand new, but can weaken over time — especially after prolonged exposure to the elements. This is an important concern if you’re installing railing as a safety barrier on balconies and stairs.

EverNew ensures long-lasting performance by building security into every railing system. Our railing features heavy-duty construction for enduring strength. When it comes to rail-to-post connections, simply using plastic brackets isn’t enough. EverNew bracketed vinyl railing offers aluminum brackets concealed with molded vinyl covers for critical protection from the elements.

Meeting the standards of the ICC

The ICC (International Code Council) is an independent, nonprofit organization responsible for the development of national model construction codes. The ICC Evaluation Service, Inc. (ICC-ES) is the leading source of technical information on building codes, products and technology in the United States. ICC-ES conducts technical evaluations of building products, components, methods and materials. Building industry professionals look to ICC-ES evaluation reports for evidence that products and systems meet code requirements. EverNew railing systems comply with the standards established by the ICC. Oxford and

Kingston in white with square balusters

Kingston vinyl railing systems have undergone third party testing as designated respectively in reports CCRR-0187 and CCRR-0211.

Details make the difference

EverNew railing offers everything you need to install with confidence:

- Heavy-duty rails offer exceptional durability
- Secure rail-to-post connections
- Aluminum rail mount brackets provide added strength
- Concealed hardware won’t rust or corrode
- Railing heights approved for deck, balcony, porch and stair applications
- Features “on-center” post spacing
- Class A flame-spread rating for a safer outdoor environment
- Outstanding warranty coverage with exclusive SureStart™ parts and labor protection
- Splinter-free surfaces
- Easy to install and clean
- Virtually maintenance-free; no painting or staining
- Safe and secure
- Consistent quality and appearance
EverNew railing is designed to keep its good looks for years to come, without a lot of maintenance. It won’t warp, rot, split or corrode, and it never needs staining or painting.

With EverNew, you can rest assured that years from now our products will perform as beautifully and securely as the day they were installed. CertainTeed stands behind the EverNew decking and railing products with exceptional warranty protection, for your added assurance of quality and safety.

All of CertainTeed’s decking and railing products are covered by SureStart protection for five years. Under this warranty feature, CertainTeed, at no charge, will repair or replace, at its option, any product proven to be defective during the SureStart period (see actual warranty for details).

**Sustainability for a lifetime**

CertainTeed respects the environment through the responsible development of sustainable building products and systems. CertainTeed EverNew railing products give building professionals and homeowners confidence that the homes they design, build, maintain, and occupy are made with sustainable materials that enhance every project’s performance and beauty.

For more information on CertainTeed’s Life Cycle Assessment Report go to www.certainteed.com/life-cycle-assessment

**Dramatic railing colors**

EverNew’s colors are designed to complement almost any deck color. From a light almond and medium clay to a darker rustic rose, and warm spice, EverNew has a railing color for your space. No matter what deck material or color you use, EverNew® has a railing to coordinate.

---

**The benefits of vinyl**

- Durable construction – weatherable vinyl exterior with aluminum reinforced rails offers low maintenance
- Precision-fit components provide a snug, secure fit with fast and easy installation
- Safe and sound metal-to-wood and metal-to-metal rail-to-post connections
- Convenient packaging in complete section boxed kits
- Wide variety of accessories, including posts, caps, and post trims that coordinate with all railing systems

---

**Rest-assured features**

Pressure-treated wood EverNew vinyl
Oxford in clay with round aluminum balusters
VINYL ROUTED RAILING SYSTEM

For safe, secure vinyl railing applications, there's no better choice than the Oxford routed system. The routed Oxford system features a unique internal rail-to-post connection and hidden hardware, so there are no unsightly brackets to detract from the look of the railing. The aluminum reinforced rail connects to a sturdy galvanized post support kit inside the routed post, for a completely concealed metal-to-metal connection.

- “T”-rail top and 2 x 4 bottom rail with hidden hardware system
- Aluminum reinforced rail connects to sturdy galvanized steel post support kit inside the routed post
- Posts routed specifically for all post applications
- Features “on-center” post spacing
- Suitable for residential and commercial applications – including multifamily and over three story installations
- Canadian railing code compliant up to 8’ span for exterior guard rail system for one- and two-family dwellings
- Independent tested as designated in report CCR-0187
- Meets IBC standards for building safety
- Class A flame-spread rating
- Lifetime limited transferable warranty with 5-year SureStart™ protection
- Choice of four baluster styles: square, classic (white and almond only), glass (clear), and round aluminum
- Available in two heights and three lengths
- Available in three colors: white, almond and clay
Post caps and trims

Aluminum reinforced top and bottom rail*
- 6' and 8' Lengths standard in flat, stair and steep stair
- 10' Lengths standard in flat and stair

Rail plate
- Made of stainless steel
- Screw flange secures top rails inside post
- Oval cut out works for all flat and stair applications

E-Z Set brackets
- Made of aluminum
- Keeps post square and snug

Sturdy post support pipe
- Hot-dipped galvanized steel
- 1-5/8” Outside diameter

Baluster styles
- Square
- Round aluminum baluster
- Classic baluster (white and almond only)

4” tempered glass baluster infill
- Clear available in 3-1/2’ only

Weather-resistant vinyl post sleeve
- Square available in 3’ and 3-1/2’ heights

Secure post mounting systems
- Post support kits provided for both wood and concrete applications

Attractive precision-fit components

Baluster hole spacing
- Top and bottom rails are routed to accept balusters
- Stair baluster spacing is wider to account for racking

Stair/step section
- Post center spacing on diagonal: 6’ section covers 68” at 32°
- 8’ Section covers 90” at 32°, 10’ section covers 117” at 32°
- 6’ Section covers 71” at 42°, 8’ section covers 96” at 42°

*Refer to product matrix for actual product specifications.
Oxford Gate Kit
Improved design for enhanced performance and easier ordering
• Heavy duty internal aluminum frame
• Stainless steel fasteners
• Features 2x4 rails
• High quality gate hardware
• Available in all colors, both heights, and square, classic and aluminum balusters (classic style available in white and almond only)
• Self closing hinges
• Easy to assemble

Oxford Glass Balusters
EverNew glass balusters combine high-end style with the quality and performance features that are distinctly CertainTeed. Our glass balusters are designed to work with either the routed or bracketed Oxford railing system.

♦ Clear 4” x 3/8” tempered glass
♦ Beveled balusters work for flat and stair applications
♦ 3-1/2’ baluster height provides a clear view
♦ Routed rails eliminate the need to fasten and screw balusters without extra brackets
♦ Bracketed and routed post connections
♦ Suitable for one- and two-family dwellings/townhouses that are not more than three stories high
♦ Independent tested as designated in report CCRR-0187
♦ Lifetime limited transferable warranty with SureStart™ protection
VINYL BRACKETED RAILING SYSTEM

Designed for use with existing wood posts, the Oxford bracketed railing system offers everything you need for a safe and secure railing installation. Oxford goes the extra mile with standard features like concealed aluminum rail mount brackets and stainless steel screws, for long-lasting strength and peace of mind.

- "T"-rail top and 2 x 4 bottom rail for sleeve-over installations
- Aluminum rail mount brackets provide a safe and secure, metal-to-metal rail-to-post connection for greater strength and longevity
- Features "on-center" post spacing
- Suitable for residential and commercial applications - including multifamily and over three story installations
- Canadian railing code compliant up to 8' span for exterior guard rail system for one- and two-family dwellings
- Independent tested as designated in report CCRR-0187
- Meets IBC standards for building safety
- Class A flame-spread rating
- Lifetime limited transferable warranty with 5-year SureStart™ protection
- Choice of four baluster styles: square, classic (white and almond only), glass (clear), and round aluminum
- Available in two heights and three lengths
- Available in three colors: white, almond and clay

Oxford in clay with round aluminum balusters

White  Almond  Clay
4” x 4” Post caps

Vinyl trim cover
- Sleek design to conceal screws
- Easily altered for close baluster applications

Aluminum reinforced top and bottom rail*
- 6’, 8’ and 10’ Lengths standard in flat and stair

Aluminum interior bracket
- The critical rail to post stress point is secured by corrosion resistant aluminum
- Uniquely designed for specific applications

4”x 4” wood post (sold separately)

Baluster styles
- Square

Oxford Gate Kit
Improved design for enhanced performance and easier ordering
• Heavy duty internal aluminum frame
• Stainless steel fasteners
• Features 2x4 rails
• High quality gate hardware
• Available in all colors, both heights, and square, classic and aluminum balusters
  (classic style available in white and almond only)
• Self closing hinges
• Easy to assemble

Secure Connection
Aluminum brackets and corrosion-resistant stainless steel screws complete the connection between post and rail to provide a strong and reliable system.

Oxford Bracket Options – Uniquely designed for specific applications

- flat
- column (minimum 8” round)
- stair (field alteration)
- 45°
Kingston offers premium features you’d expect to find on higher-end systems, including high-quality aluminum rail mount brackets for superior safety and security. Secured by provided stainless steel fasteners, the aluminum brackets are completely concealed by molded vinyl covers, so you never have to worry about rust or corrosion.

- Classic bread-loaf rail design (on both top and bottom rails) for sleeve over applications
- Aluminum rail mount brackets provide a safe and secure metal-to-metal, rail-to-post connection for greater strength and longevity
- Unique molded vinyl bracket covers designed for flat, stair, column, 45° and 22-1/2° applications
- Features “on-center” post spacing
- Suitable for one- and two-family dwellings and townhouses not more than three stories high
- Canadian railing code compliant up to 8’ span for exterior guard rail system for one- and two-family dwellings
- Independent tested as designated in report CCRR-0211
- Meets IRC standards for building safety
- Class A flame-spread rating
- Lifetime limited transferable warranty with 5-year SureStart™ protection
- Choice of three baluster styles: square available in all five colors, traditional in white and almond, and round aluminum
- Available in two heights and three lengths
- Available in five colors: white, almond, clay, warm spice and rustic rose

Color Note: When installing dark colored product, keep stored in a shady/cooler area and out of direct sunlight prior to installation.
Refer to product matrix for actual product specifications.

Aluminum Handrail Component System

- Complies with ADA (Americans with Disabilities Act) requirements for grippable handrails
- Ideal for use with EverNew railing systems
- Installs easily on site with no preformed fittings
- Unique adjustable joiners accommodates any transition – 0˚ to 90˚ bends
- Aluminum construction reduces bowing and provides enduring strength
- Safe for stair and ramp applications
- Continuous handrail runs
- 1-1/2” diameter gripping area
- Virtually maintenance free
- Lifetime limited warranty
- Functional finishing touches: post and wall returns, end caps, return loops and a convenient straight joiner
- EZ Set bracket kit available for attachment to routed system

Note: Handrail depicted is not free standing and must be anchored to walls or guardrail using handrail bracket assembly (74028/74029). Space a maximum of 6’ on center and as close as possible to both sides of any joint. (ADA compliant at 6ft spans)
EverNew Gate Kits

EverNew gates feature a heavy-duty internal aluminum frame for sturdy construction that’s built to last and stainless steel fasteners to prevent corrosion.

- Available for Oxford and Kingston railing systems
- Kit includes all parts needed to build a railing gate up to 60” wide
- Aluminum reinforced uprights and rectangular rails
  - Balusters
  - Upright caps
  - Stainless steel screws
  - Black nylon gate hinges (self closing)
  - Latch
VINYL DECKING

Easy to install, easy to maintain... EverNew’s easy to clean deck surface is perfect for busy, no-maintenance lifestyles.

- Excellent color retention
- Cool to the touch – Barefoot Friendly™
- Easy to clean, non-porous vinyl surface
- Will not stain from spills
- Available in 12’, 16’ and 20’ lengths
- No visible screws or exposed hardware
- Independent tested as designated in report CCRR-0219
- Lifetime limited transferable warranty with 5-year SureStart™ protection
